

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.

+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.

+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.

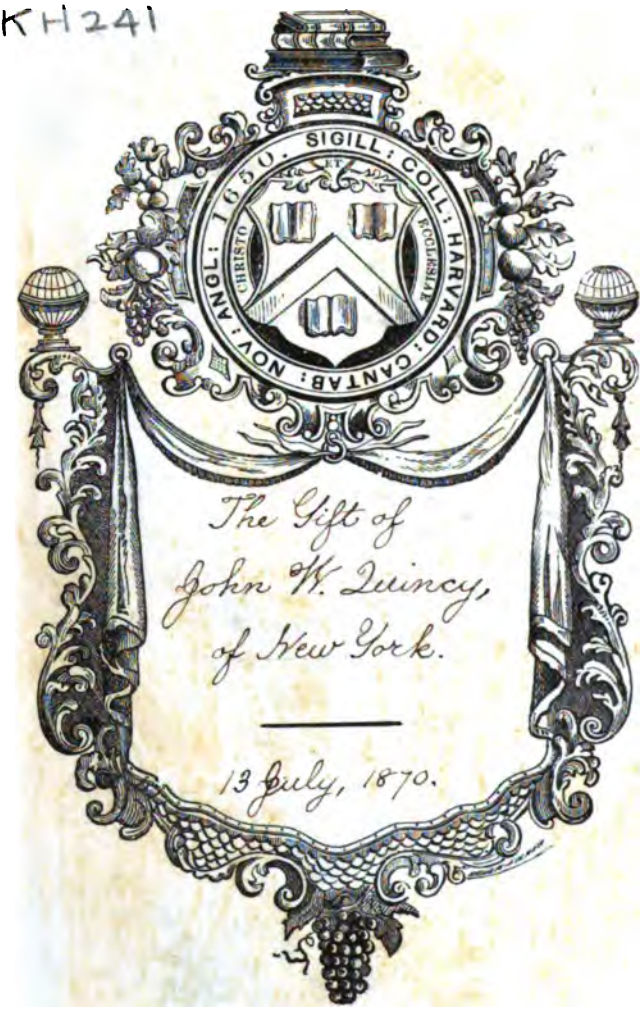

+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

PREFACE.

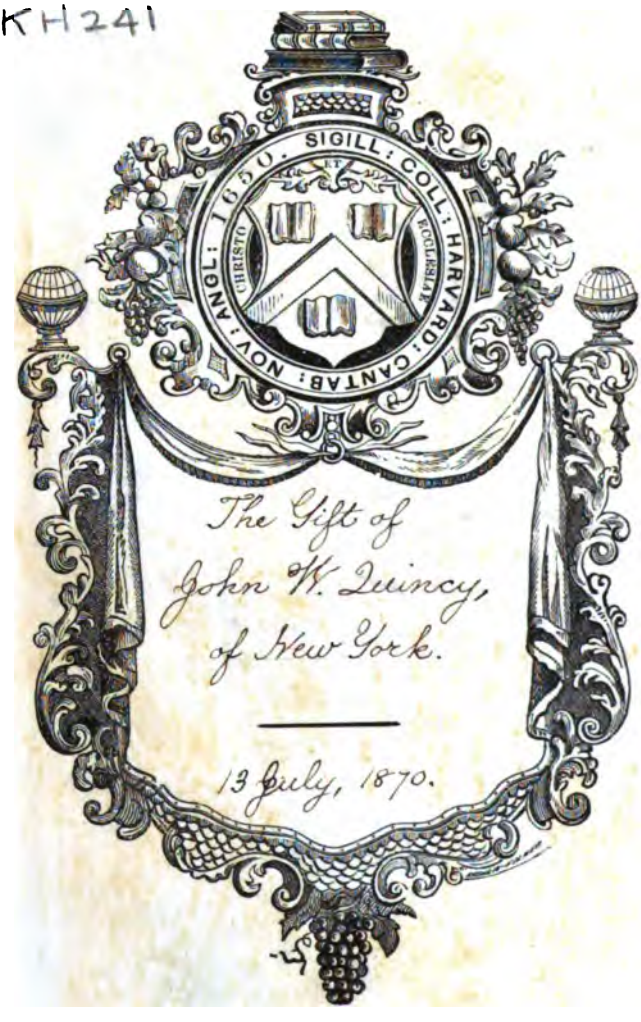

We have been induced to prepare and publish the present volume, in accordance with the settled convictions of our own minds, that the business interests of the State of Ohio demanded the publication of a work which would present, at one view, its Mercantile, Manufacturing, and Commercial resources, and present to professional and business men, in every city, town, and village, a medium of acquaintance with each other; which conviction has been confirmed, as we have progressed with the work, by the almost universal approbation and support which it has received from an intelligent public throughout every portion of the State, manifested by the hearty co-operation of numbers of gentlemen of almost every occupation, in aiding our special agents in obtaining the necessary statistics, and in becoming themselves local agents in their own vicinities, for procuring and furnishing such information as would enable us to compile a correct list of every business and profession. The agents, wherever they presented the prospectus, received almost the universal support of business men, being far greater than was anticipated by the proprietors.

In addition to the list of Post-Offices in the State of Ohio, promised in our prospectus, we have inserted a Map of the State, laid off in Townships, on which all the Railroads now in operation, as well as those in process of construction, are correctly laid down. We have also prepared and inserted a neat Map of the city of Cincinnati.

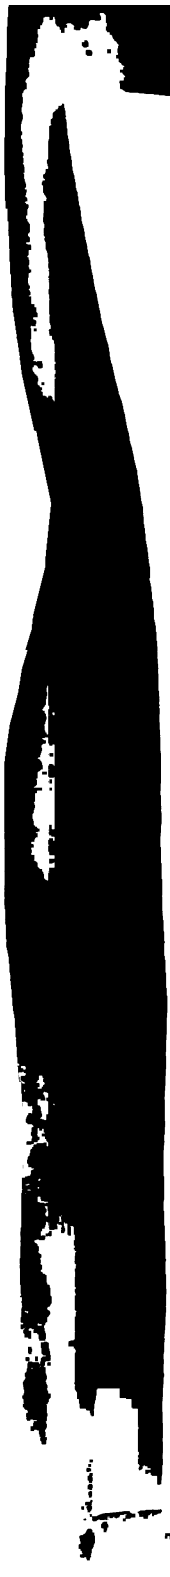

In reference to the arrangement of the work, it will be perceived that every business, as well as the counties in the State, are arranged in alphabetical order. Other plans will doubtless suggest themselves, as being preferable to the one we have adopted, but we think, on reflection, it will be conceded that its convenience, as a book of reference, has been promoted by the present arrangement; inasmuch as all that is necessary to be known, in order to find the location of any business or professional man in the State, is to know what is his occupation, then by referring to the Index, it will be seen on what page of the Directory that business is to be

PREFACE.

We have been induced to prepare and publish the present volume, in accordance with the settled convictions of our own minds, that the business interests of the State of Ohio demanded the publication of a work which would present, at one view, its Mercantile, Manufacturing, and Commercial resources, and present to professional and business men, in every city, town, and village, a medium of acquaintance with each other; which conviction has been confirmed, as we have progressed with the work, by the almost universal approbation and support which it has received from an intelligent public throughout every portion of the State, manifested by the hearty co-operation of numbers of gentlemen of almost every occupation, in aiding our special agents in obtaining the necessary statistics, and in becoming themselves local agents in their own vicinities, for procuring and furnishing such information as would enable us to compile a correct list of every business and profession. The agents, wherever they presented the prospectus, received almost the universal support of business men, being far greater than was anticipated by the proprietors.

In addition to the list of Post-Offices in the State of Ohio, promised in our prospectus, we have inserted a Map of the State, laid off in Townships, on which all the Railroads now in operation, as well as those in process of construction, are correctly laid down. We have also prepared and inserted a neat Map of the city of Cincinnati.

In reference to the arrangement of the work, it will be perceived that every business, as well as the counties in the State, are arranged in alphabetical order. Other plans will doubtless suggest themselves, as being preferable to the one we have adopted, but we think, on reflection, it will be conceded that its convenience, as a book of reference, has been promoted by the present arrangement; inasmuch as all that is necessary to be known, in order to find the location of any business or professional man in the State, is to know what is his occupation, then by referring to the Index, it will be seen on what page of the Directory that business is to be

found, and by commencing at the heading, and running through the different counties, as they are alphabetically arranged, the object of the research will doubtless be found.

We congratulate ourselves on the accomplishment of our great aim, to make the work as perfect as time, money, and labor could make it. In doing this, we have had from ten to thirty men employed for different periods during the last four months, and in its issue, nothing has been spared to produce the work as quickly as it could be done, to get the matter correct before publication. Some may have thought it slow in its issue, but every one who will reflect, for a moment, on the immense labor necessary to procure statistics from eighty-eight counties, divided into nearly seventeen hundred post-offices, in addition to which was the arranging and compiling this matter in the order in which it is now presented, must be convinced that no unnecessary delay has occurred. In reference to the fullness of the list, we would observe, that out of nearly seventeen hundred post-offices in the State, we have received returns from all but a very few, and these are chiefly offices where there are no villages. Many places have had to be taken the second and third time, in consequence of the loss of matter through the mails, yet the publication was delayed until they were received. We feel no hesitation in saying that no work of the kind has been published upon which so much money has been spent, and the work made so perfect. Although it would be impossible to get every name in every town, yet each place has been canvassed by good men, who have acted toward us and our business in good faith.

Trusting our work will be appreciated according to its merits, we respectfully submit it to all who may be interested in the matter it contains.

WATER CURE ESTABLISHMENT, GREEN CO., O.

The above establishment being considerably enlarged and improved, is now open for the reception of patients and visitors. It is capable of accommodating over 100 persons. Being situated in a region of country well-known for the purity of its atmosphere, healthiness, and for its beautiful and romantic scenery, it offers advantages to the health seeking which few establishments possess. The Springs are numerous and inexhaustable, and of the purest water. Having 100 acres of land attached, principally woodland, there is ample scope for exercise without leaving the premises, independent of the walks and rides in its immediate vicinity, which are the most beautiful in the State of Ohio, and good fishing in the Miami about half a mile distant.

There is also a Bowling Saloon, Gymnasium, and a Swimming Pool with other descriptions of amusements where patients and visitors can engage in such healthful and diverting exercise, as will be best calculated to restore their muscular strength.

The Medical department is under the care of A. CHENEY, M. D., and G. W. BIGLER, M. D.

Patients are requested to bring with them two coarse cotton sheets, 1 linen sheet, three comforts, one blanket, and four towels. Patients not bringing the above will be charged 50 cents per week extra.

The establishment can be reached by the Little Miami Railroad from almost every direction. Persons will please notify the conductor on the cars, who will leave them at the "Water Cure Station" opposite the House.

TERMS.

For Board and Treatment, $6.00 to $10.00, according to the season of the year, length of time the patient may remain and attention required.

I. STRAUB. B. HAZLET.

ISAAC STRAUB & CO., Mill Factory,

Corner of Front and John Streets, Cincinnati, O. Warehouse, No. 19 Front Street, between Main and Walnut.

The above is a cut of a single-geared "Queen of the South" Corn Mill and Crusher.

We manufacture a Cob Breaker of great strength and ease of operation

We place this useful contrivan e on all sizes of Mills, by which means we convert a Corn Mill into a Stock-Feed mill; but a few minutes' work to put it on, or to take it off.

We manufacture portable mills, single and double-geared—best quality of French burrs—to grind Corn, Wheat, and Stock Feeds, calculated for steam, water, or horse power. These mills have been run by steam and horse power, in competition against the other make of mills of our city, at our State Fairs, and have never failed to carry off the first premium—on one occasion was awarded a beautiful silver medal. Our mills also took two first premiums as the best mills, at two Annual Fairs of our Mechanics' Institute.

ALSO—Portable Saw Mills, to be run by steam, water or horse power. This mill was exhibited in operation by horse power, at the Ohio State Fair, in 1860, when it was awarded a premium and a splendid silver medal.

ALSO—Different kinds of portable horse power and steam engines. All our articles, for ease of operation, simplicity, usefulness and durability, are surpassed by none now in use.

All our articles are warranted as represented—or no sale—at our cost of transportation, and the money refunded. For a full description and testimonials of merit and usefulness, we refer those interested to our pamphlet, to be had at our factory, where we take pleasure to explain each article.

ISAAC STRAUB & CO.

NOTE.—Mr. Kimball, the partner of J. H. Burrows, while exhibiting a Burrows' Mill at our State Fair, last fall, was boisterous about his mill, and courageously entered into a verbal agreement with me to grind corn thus. Whoever grinds the most, regarding quality and quantity, was to be the owner of both mills at each and every trial.

FIRST TRIAL.

Straub to run an 18 inch mill.
Burrows & Co. to run a 20 inch mill.

SECOND TRIAL.

Straub to run a 22 inch mill.
Burrows & Co. to run a 24 inch mill.

THIRD TRIAL.

Straub to run a 26 inch mill.
Burrows & Co to run a 30 inch mill.

When the pinch came, that boisterous courage stepped out.

To the above I now append a challenge to grind cob feed out of whole ears of corn.

I will run my 18 inch "Queen of the South," with a cob-breaker attachment, the same article that took the premium at the Ohio State Fair, last fall, against a 24 inch Burrows' Mill and Wm. Stewart's Ohio and Kentucky Stock Feed Mills, both to be run at once; and if you are apprehensive of a risky business, you have my entire approbation to run Mr. Pomeroy's Corn Crusher as an auxiliary. Should my single article fail to grind equal in quality and quantity to the combined productions of the two or three mills—just as you please—then you can draw a few hundred dollars as stakes put up.

Come boys, don't be cowardly, there is nothing like walking straight into the merits of the things.

To J. H. BURROWS & Co., Sept. 29, 1862. ISSAC STRAUB.

NEW VOLUME! NEW TYPE!! NEW FEATURES!!!

ENLARGEMENT TO MAMMOTH SIZE.

THIRTY-SIX COLUMNS OF READING MATTER.

GREAT IMPROVEMENT

In Quality of Paper, Beauty of Printing and Excellence of Reading Matter.

A New Volume was commenced a short time since of the

LARGEST DOLLAR WEEKLY

Paper in the West, Published in Cincinnati, entitled

THE DOLLAR

WEEKLY TIMES

ESTABLISHED IN 1843.

CALVIN W. STARBUCK, PUBLISHER. **JAS. D. TAYLOR, EDITOR.**

The Dollar Times has been in existence near ten years, and in that time has secured a circulation beyond the most sanguine expectations of its warmest friends, without the aid of self-laudatory advertisements, or even the ordinary exertions that should have been used to place it in a proper light before the public. Neutral in politics, yet speaking freely and fearlessly on all the great national questions now at issue between the parties, the TIMES addresses itself to the candid reader of both. An important feature of THE DOLLAR TIMES is its **Literary Department,** to which much time and attention is devoted, in preparing and selecting such matter as may be carried with pleasure and profit into the Parlor and to the Hearthstone of our most exemplary citizens.

The Agricultural Department is attended to with great care, and all the discoveries in the Science duly explained and recorded. **The Commercial Department** is under the control of efficient Reporters, who pay particular attention to the principal Commercial transactions of the City. This Department of the TIMES is so full and complete that EVERY BUSINESS MAN IN THE WEST will find it to his interest to subscribe for it.

GREAT CARE IS TAKEN TO ADAPT THIS PAPER TO

The Family Circle,

And to those who desire to avoid all things offensive to good morals or good taste, or repugnant to the purest principles. In conclusion, the Proprietor is willing to guarantee that THE DOLLAR WEEKLY TIMES is, without exception, the

HANDSOMEST, CHEAPEST AND BEST

Literary & Business Paper in the West.

☞All communications on business should be addressed to the Proprietor, and the Postage in all cases must be paid. ☞All Postmasters are authorized Agents for the TIMES, and will receive subscriptions, or they can be sent direct (postage paid) to

Between Sixth and Seventh, opposite the Walnut Street House.

It is a four story building with stone front, which I erected in 1850. Business increased so rapidly, and to meet the demands of a discerning public, last year I erected a five story building in the rear of the one on Walnut street, and am fitting up with all the modern improvements of the age. Continued success is the best proof of true merit, and this house has no parallel in the West in this respect.

Within the last two or three years other New York Dye-Houses have sprung up, they may put out the sign, but they cannot take my ability and skill from me for carrying on the business. A great many have been entrapped by them, and often have they found out their mistake in time; but, behold, they would not give up the goods until they were done by them and paid for. Several have brought them to the Original New York Dye-House to be done over in the usual superior style, which no other New York Dye-House can compete with. Be sure and ask for

Teasdale's New York Dye-House,

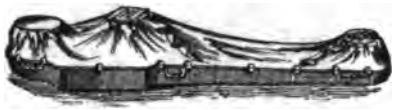

And see the name for yourself and, don't believe any one until you do see it. We are doing a very heavy business, and this is the only house that does employ hands in the different departments of the business, consequently goods can be done in less time and in a superior manner. This is the original and only responsible New York Dye-House and Steam Dye Works in Cincinnati.

Goods sent to our address by Adams and & Co.'s Express, or Livingston & Fargo's, can have them returned to their satisfaction. We have done considerable business in this way, and in no instance have we ever heard of mistake.

Maish's Patent Refrigerator,

MANUFACTURED SOLELY BY J. & J. M. JOHNSTON,

At their Steam Box Factory, S. Side Third St., bet. Plum & Western Row, Cincinnati.

For the **Improvements** which are found in this **Ice Chest** over all others now in use, LETTERS PATENT were granted April 20, 1858.

In its internal structure, it provides a strong, simple and efficient means of appropriating to cooling purposes, the water from the slowly melting ice, and also, all the condensing moisture of the atmosphere as it accumulates, without wetting the parts of the shelves which come in contact with the articles placed upon them for protection.

One chief advantage is in the shape of the shelves. They are formed of corrugated or crimped sheet metal; the upper angles of which support the dishes, or other articles, above the water which runs in the intervening channels. The ice is contained in a chamber at the top of the Safe. The angular shape of its bottom directs the drip as it falls to one particular point on the upper shelf, the corrugated channels of which are filled to a certain point, and then the water passes down a small pipe at the end, to the next shelf, which is filled in its channels in like manner—it then passes down to the next shelf, and so to the bottom, where it is finally discharged through a small tube, over which there is a cap, while at the same time it lets the water discharge. The angular shape of the bottom of the Ice box allows every drop of water to pass off, as it melts, thereby preserving the ice a longer time than most all other safes.

Uniformity of temperature is secured from top to bottom, and should it be desired at any particular time to lower the temperature, the form of the shelves will safely allow Ice to be placed on any one of the shelves without injury to the surrounding articles. Other safes are made with hollow shelves for the passage of water, but their shelves being double are much heavier, more costly, difficult to clean, and liable to burst from various causes. This one is light, safe, simple and cheap. They are made of all sizes, to accommodate Families, Hotels and Steamers. They can be made ornamental as furniture for dining rooms, or other positions persons may wish them to occupy. We invite all in want of a good and cheap Ice Safe, to call and examine these carefully, confident that they are nearer perfection in their way, than all others now before the public. We are still manufacturing the OLD STYLE of Ice Chests, and are prepared to fill orders for all sizes. **J. & J. M. JOHNSTON, Third Street, Cincinnati.**

DYSPEPSIA!

These Restorative Pills have been used in private practice, with unprecedented success, for 20 years, they have never before been offered to the public. These Pills remove obstructions, open the natural passages of the fluids of the body—as the pores and **lacteal vessels.**

THEY ARE WHOLLY VEGETABLE.

And perfectly harmless in their effects; instead of weakening and debilitating the patient, (as is usually the case with other Pills,) they give **tone** to the **stomach**—strengthening and invigorating both stomach and bowels, and imparting new feeling and energy to every part of the system.

Being wholly vegetable, they are mild in their operation, without griping, or any pain whatever. They are slow in their movement, but thorough in their renovating and restorative character, and need only to be tried to be approved of by all such as are afflicted with the horrible suffering arising from Dyspepsia, or any of the symptoms of a disordered stomach.

The Stomach is the Centre of Sympathies.

It is principally supplied with nerves by a large pair proceeding directly from the brain, called the Par Vagum. These, in their course, send branches to the pharynx and larynx, the æsophagus, the vessels of the neck and heart, the lungs, the liver, the spleen, and the diaphragm.

It is unnecessary to go farther than a primary derangement of the stomach, to account for a multitude of distressing symptoms with which many are afflicted, such as Indigestion, Billiousness, Acidity, Palpitation of the Heart, a Sense of Oppression at the pit of the Stomach, an Incapacity for the slightest exertion, Depression of Spirits, Mistiness and Indistinctness of Vision, Cold Hands and Feet, Unpleasant Taste in the mouth, particularly when rising in the morning, Numbness of the Limbs and other parts, Vertigo, Nausea, Dull heavy Pain and sense of weight in the Head, Head-Ache, Extreme Nervous agitation, Difficulty of Respiration, Stupor, a temporary loss of Memory, Irritability, a sense of emptiness, Drowsiness, Pulse less frequent, and more feeble than usual, Debility, extreme Langor and Exhaustion, Despondency, Restlessness, Emaciation and Extreme Debility, Costiveness.

Persons purchasing these Pills will be careful to observe that the name of O. HALSTED, (IN GILT LETTERS, on black paper,) is affixed as a wrapper to each box, and that NONE ARE GENUINE unless labeled in this manner, For sale by the Druggists everywhere. Principal depot at

Burnet's, 14 E. Fourth St. Cincinnati.

PRICE FIFTY CENTS.

Persons remitting us $1.00 in cash, or Postage Stamps, will receive (by mail) TWO BOXES of Pills FREE OF EXPENSE.

All who order from seeing this Advertisement, will please notify us of that fact.

Country merchants can purchase these Pills from CINCINNATI DRUGGISTS at Proprietor's prices.

LORD'S CINCINNATI COUNTERFEIT DETECTOR

AND

BANK NOTE REPORTER.

The above named publication has reached its twelfth year; we have not missed, for that period of time, a single issue. It is one of the oldest publications of the kind in the West; it has been the Editor's constant aim to lead off in matters of public utility and reform, and not wait for the movements and opinions of others. Our "DETECTOR" was the first publication in the West to advocate the "Free Banking System," based upon State and United States Stocks, which afterwards passed into a law, and is now in successful operation, not only in Ohio, but has recently been adopted in several other States.

Since we commenced the publication, circumstances have changed and we change with the circumstances. Instead of a monthly, our patrons, which are already numerous, are now calling for a **Semi-Monthly**, we therefore issue our prospectus, and solicit the patronage of a liberal public. The country is being flooded with counterfeit notes and spurious bills of every description, and recent developments show that Cincinnati is the great theatre of action.

Our subscribers to the monthly can take the semi-monthly, to commence at any time, by remitting to us the difference in the price, and we solicit them to do so at once. **It is published upon the 1st and 15th of every month.**

We shall continue to illustrate new and dangerous counterfeits, by engraving parts of the bills, showing the most striking difference.

Each subscriber will be furnished, upon subscribing, with a Gold and Silver Coin Chart, of the various coins now in circulation in the world, free of charge; those who wish will be supplied with a good Magnifying Glass for examining notes, by paying from 25 to 50 cents, according to size and quality.

The publication has recently been re-set in new type of the most approved English style, and enlarged to three columns. It is one of the neatest Detectors extant, and contains nearly one-third more matter than any similar publication in the United States.

We might here insert numerous favorable notices of the press of Cincinnati as well as from various other places; but they are so common that we withhold them, preferring to rest the merits of the publication upon its own established reputation.

Our Detector has been translated into the German language, is now in press, and will be out with all possible dispatch. The first number (German) will be published in July.

TERMS:

English Detector, per annum, Semi-Monthly, - - $2.00
Do. do. do. Monthly, - - - - 1.25

CINCINNATI.

He has always on hand a variety of Blinds. Orders promptly attended to. To those wanting anything in his line, he invites an examination of his Stock, feeling confident that his work will recommend itself.

We are now prepared to offer our friends and customers a superior article of Water Coolers of entire new styles, at greatly reduced prices. This article is the result of the application of scientific principles to the purpose intended, viz: to keep water *as cool as possible, as long as possible, and with the least possible quantity of ice.*

The proprietor has long devoted his attention to this particular branch of domestic economy, and passing from one improvement to another, has at length arrived as near perfection as it is possible to reach. A proof of this is found in the very general use of these Coolers, in all parts of the country. A simple statement of fact in regard to these Coolers, will satisfy every one of their superiority. First, they are *the only articles of the kind ever patented.* They are finished with two distinct non-conducting chambers, by means of which, with two pounds of ice to the gallon, water is kept (at a temperature of 40 degrees above zero, or only 8 degrees from the freezing point) all day. Thus at the cost of some five cents per day, a family of ordinary size can be constantly supplied with water as cold as ice itself; larger numbers in the same proportion. This has been found by actual experiment to be a saving of at least seventy-five per cent. over the earthen jars formerly used for this purpose.

Again, these Coolers NEVER SWEAT, in this way saving much unnecessary waste and trouble.

Being manufactured in the most workmanlike style, and handsomely finished in every respect, they make a very beautiful ornament for the dining-room, hotel or steamboat.

An important improvement has lately been added to the Cooler, viz: a small pan (capable of holding from six to eight pounds of butter) inserted directly under the cover. This quantity of butter can be kept perfectly hard all day, without additional ice, (a very important addition to the economy and comfort of families.)

If desired, the Cooler can also be furnished at a small expense with a **Filtering Apparatus,** which serves the additional purpose of removing all impurities from water, rendering it perfectly clean and wholesome.

The Cooler and Filter may be seen in operation at any time, at

EVENS'

PERCUSSION SEAL PRESS.

"This cut is designed to represent Evens' Percussion Seal Press. Both as a protection against fraud, and as an elegant and convenient method of giving publicity to an address or a business card, this portable little machine is perfectly effective. Though it weighs but two pounds, the effect of a blow with the palm of the hand upon the top of the press gives an impression equal to that which would follow the dead weight of a ton. The impression itself is in handsome raised or embossed letters, and is embellished with any kind of device the purchaser may select.

Formerly, presses for the same purpose with this of Mr. Evens, cost from twelve to thirty dollars. This one is offered complete for only five dollars, and is in all respects as perfect in its operations as the most expensive. Who ever wishes to circulate his address or his business cards on the paper upon which he writes his letters, or upon the envelope in which he encloses them—whoever wishes notarial seals, or seals for lodges or societies, or whoever desires to impress his private seal upon checks, bills of exchange, orders, deeds, bills of lading, &c., as a protection against fraud, will in this way be able to do so at a very trifling expense. The cut sufficiently indicates the operation of the press, but a personal examination is needed to convince a person that so great an effect can be produced by so simple a machine. This is a Cincinnati invention, and is destined at no very distant date to supercede the old cumbersome lever and screw presses now used. We have examined a collection of specimens engraved by Mr. C. F. Hall, the general agent for the sale of these presses, and for sharpness of embossing, and regularity in the spacing and execution of the design we have never seen them equalled. Mr. Hall has a large number of engravers constantly employed in filling orders from nearly every state in the Union. We are happy to learn that the inventor and manufacturer, Mr. Platt Evens Jr., has taken measures to secure a patent. An advertisement of the press will be found in our business columns."

BOSTON PIANO AGENCY.

At his old stand, 4 doors north of the Neil House, Columbus, O.,

Is in the field again, and takes great pleasure in announcing to the citizens of Columbus and Central Ohio, that he has just returned from Boston, New York and Philadelphia, where he has made arrangements with the best manufacturers in the United States for one hundred PIANOS, among which will be found the far-famed and unrivalled CHICKERING PIANO, long esteemed the best Piano-Forte maker in America, who received a Prize Medal at the World's Fair, London. Also, GILBERT'S PREMIUM BOUDIOR PIANOS, that have received the highest encomiums from musicians and musical public of Boston, New York, and all the principal cities of the Union. Occupying only the chimney-corner, but with a tone resembling the Grand Piano, and for compactness of form, beauty of style, power and quality of tone, they surpass all others ever made in this country.

The subscriber, being a practical Piano Maker, having worked several years in the Piano Factories of Chickering and Gilbert, and for the last ten years an extensive dealer in the above Pianos, feels confident that all Pianos selected by him are of the best tone, touch and workmanship.

Pianos sold at this agency will be warranted for five years, if well used, and if they do not prove good, the purchase money will be refunded, or exchanged to suit the purchaser.

Orders from a distance promptly attended to. Pianos boxed with great care and sent to any part of the State, and warranted to go safe. Pianos at this agency will be sold at manufacturers' prices.

P. S.— Pianos furnished to dealers and seminaries at BOSTON WHOLESALE PRICES.

This Institution, which embraces the west and front sections of the edifice represented in the engraving, originally designed by its founder, LYNE STARLING, Esq., for Hospital or Infirmary purposes, is now open and ready for the reception of patients. Its apartments are spacious, and its location one of the most delightful and salubrious in the city.

The Institution is designed for the treatment of *Chronic Diseases*, of both sexes, which are capable of cure or relief, and especially for all such as come within the domain of *Surgery*. A part of the building is occupied by patients afflicted with diseases of the eye. Other apartments are provided for other classes of surgical disease, whether originating from accident or constitutional causes; and another portion is set apart and fitted up in a neat and elegant manner, for the accommodation of females who resort to this Institution for the treatment of diseases peculiar to their sex.

As the use of the bath in some of its forms,—cold, tepid, shower, sitz, douche, &c. is justly regarded as an important auxiliary in the treatment of a large share of chronic diseases, care has been taken to procure an abundant supply of water with all necessary apparatus for the convenient application of this curative means in all cases requiring it.

Mrs. WRIGHT, formerly matron to one of our State Institutions, whose talents and personal accomplishments admirably fit her for the responsible place, is Matron to this institution. She will always be present or accessible to those who may need her kind attentions.

Attendants and household servants will always be in readiness to meet or anticipate the wants of of every patient.

The subscriber, having bestowed much labor and reflection to combine whatever science and modern experience have found useful in similar establishments—assures the public that no professional service or personal attention shall be wanting on his part to make the situation of his patients agreeable, and to realise as far as possible the hopes of relief which may induce them to place themselves in his care.

Physicians are particularly invited to call and examine his facilities for the treatment of disease. Letters of inquiry from invalids or their friends, will be promptly answered.

TERMS.—The terms upon which patients will be admitted will vary somewhat, according to the importance of the case; the attention bestowed, the room occupied, and the pecuniary circumstances of the patient. For Board, Washing, Room, Fuel, Lights Nursing and Treatment, the charges will generally range from six to ten dollars per week. Surgical Operations will always be an extra charge.

(This Engraving is an exact likeness of our Five octave Piano style Instruments.)

NOS. 64, 66 & 68 ONTARIO STREET.

They propose to furnish a better article of Instrument than has been before offered in the Western market, combining the late improvements, and finished in a superior manner. They have now, and will have constantly, in the hands of the workmen, in the process of manufacture, over 300 instruments.

Particular attention is called to their large Double-Reed Instrument, with 4 stops, designed more particularly for Churches and Lodges, and their large Parlor Instrument, in Piano style, as being greatly superior, in every respect, to any thing of the kind heretofore made in the United States.

One of the Partners having been engaged in the manufacture of Melodeons ever since the patent was issued, has the important advantage of long experience in the business, and a practical knowledge of all the details of their construction. They are therefore enabled, from the peculiar facilities they possess, to WARRANT their instruments to be of unsurpassed quality in every respect.

FLOURING MILLS.

These Mills are superior to all others for the quantity and quality of work produced with a given power. They are made of the best French Burr Stone, imported expressly for the purpose. The grain is fed through the spindle, occupying but little room in the upper stone for the eye, and leaving the under stone entire, thus securing the greatest amount of grinding surface near the centre. The whole is placed in a frame which opens on hinges and gives an opportunity of dressing the stones without removing them from their bearings. They possess many other advantages which cannot be described for want of room.

UNITED STATES LIFE INSURANCE,
ANNUITY & TRUST COMPANY,
S. E. CORNER THIRD AND CHESTNUT STS.,
PHILADELPHIA.
$806,029,04.

This is quite the only Company, in the City, State, or United States, that proposes to pay its dividends in Cash to its members. This Company do not deal in Scrip dividends, payable when convenient, but make every cent of profits available to its members, if preferred, in Cash on demand.

Assets liable for losses January 1, 1863—$806,029 04.

Premium payments can be made with reference to the convenience of parties opening policies with the Company.

Policies will be issued for the benefit of married women and children, free from the claims of the representatives of husbands, or creditors

Policies may be assigned without the knowledge of the Company.

No policy shall be vitiated through error merely, unless there existed at the time a fraudulent intention.

The original amount of policies will be reduced at any time, to suit the pleasure of insured parties.

Policies of two or more years' standing will be purchased upon surrender.

Policies, with the profits, forfeited by non-payment of premiums, may be renewed at any time by the payment of arrears, with interest provided the health of the part, at the time is unimpaired.

The liberality of the Traveling License is peculiar to this Company, permission being granted to cross the Atlantic at any season of the year, in the first-class steamers or sailing packets free of extra charge.

The object aimed at by this Institution, is stability and perpetuity. The rates of premium have been carefully prepared with reference to fluctuations. The first object of the plan presented is to make certain provisions to meet the first motive to insure, and which consideration should be paramount to all others, viz: the prompt payment of losses as they occur; after which, to make such additions of profits to the policy as the progressive gains of the Company will justify, or pay such gains to its members in Cash, on demand.

The plan of operations adopted by this Company is peculiar to itself; no notes are received for premiums. All its operations being based upon cash, its dividends are made available in like manner, or appropriated to the reduction of premiums, at the option of policy-holders. LIGHTNING RODS.

ARMITAGE'S PATENT.

The subscriber calls the attention of the public to his SUPERIOR

ELECTRIC-MAGNET LIGHTNING RODS.

IT is now fully admitted, on all hands, that every building, to be secure from the destructive influence of Lightning, should be provided with a good conductor.

The large number of worthless Rods that are put up makes it necessary for purchasers to examine the merits of the different rods offered for sale.

I earnestly invite a rigid examination of the principles on which my Rods are constructed.

I have put up nearly **6,000 Rods**, and have never heard of the loss of one dollars' worth of property by Lightning, in any building, to which one of my rods has been attached. I, therefore, feel great confidence in recommending them, not only as the best, but as the only safe rod in use.

The following gentlemen having examined these rods and given them their unqualified approbation; have kindly given me their permission to refer to them:

CRITTENDEN'S POPULAR TREATISE ON BOOK-KEEPING.

E. C. & J. BIDDLE, No. 6 South Fifth St. Philadelphia, publish S. Worcester Crittenden's practical and popular Works on Book-keeping, below named :

Common School Book-keeping, (recently published,) price per copy,			48 cts.
Blank Books for ditto.	"	" set	45 cts.
Key to ditto.	"	" copy,	20 cts.
Treatise for High Schools,	"	" "	80 cts.
Treatise for the Counting-House,	"	"	$1.50

The Treatise for High Schools is an abridgement of that for the Counting-House. In the work for Common Schools the same general plan is pursued to elucidate the science as in that for the Counting House, with such modifications, however, as it is believed, admirably adapt it to the use of Retailers, Mechanics, Farmers, Professional Men, and others whose business renders an acquaintance with only the less complex forms of accounts necessary to them, as well as for the use of schools.

The Counting-House and the High School Editions have had a large sale throughout the United States, which is steadily increasing. The Counting-House edition is pronounced by the Book-keepers of many of the largest and most highly respectable commercial houses of New York, Boston, Philadelphia, Baltimore, New Orleans, St. Louis, and Cincinnati, to be "by far the most complete work we (*they*) have examined on the subject."

The above named works may be had of H. W Derby & Co., and Moore, Anderson & Co., Cincinnati; J. Keen Jr & Co., Chicago; H. J. Loring, St. Louis; John B. Steel, New Orleans; and of Booksellers generally.

DR. SWAYNE'S

CELEBRATED FAMILY

MEDICINES

DR. SWAYNE'S COMPOUND SYRUP OF

WILD CHERRY.

Still another remarkable cure of Consumption

And its dangerous attendants, after having been given up to die by physicians and friends. The annals of history cannot furnish a parallel.

POINT OF ROCKS, FREDERICK CO., MD., June 9, 1861.

DR. SWAYNE,— Dear Sir,—Believing it a duty I owe to the public, and in justice to you I have thought proper to make known one of the most extraordinary cures, in my own case, that has ever been truly recorded. In the month of October last I was afflicted with a severe gathering in my breast, which formed a large abscess, and also communicated to my lungs and very much afflicted them, and discharged large quantities of corruption, externally and internally. Large quantities passed through my lungs which I threw up. My breath could also pass through my lungs, and out through the cavity of my breast with apparent ease, attended with a violent cough day and night, loss of appetite, and extreme debility, so that my physicians thought my case entirely hopeless and beyond the power of medicine. I remained in this wretched condition along time, until I was wasted to a mere skeleton, and there seemed to be no hope for me; but having read in the public papers of the many wonderful cures performed by your COMPOUND SYRUP OF WILD CHERRY, I immediately sent to Baltimore for five bottles and commenced its use, and to my great satisfaction, and that of my anxious family, the abscess or opening in my lungs began to heal, and the cough subside, and on using ten bottles I was restored to perfect health. I feel very grateful, and firmly believe that to your valuable medicine, under the blessings of Divine Providence, I am indebted for this great change, and I am happy to say that I am now enjoying as good health as I ever have.

Yours, very respectfully, THOMAS DIXON.

The subscriber is well acquainted with Thomas Dixon, and can testify that he has been afflicted as above represented. I regard his recovery as almost a miracle. He is a worthy member of society.

REV. JAS R. BURBORROW,
Pastor of Berlin Circuit, Baltimore Conference.

RELIEF FOR MAN AND BEAST.

THE HORSEMAN'S HOPE,

OR

FARMER'S FRIEND.

Arrangements are now made for supplying the Public with this

GREAT REMEDY,

Which has been used with wonderful success by those who have had an opportunity of testing its virtues. No family should neglect to have a supply, and all persons would do well to keep some by them, to be used in case of accident to Man or Horse.

For Horses, etc.

For the Cure of

Sprains,
Bruises,
Saddle and Collar Galls,
Swelled Joints,
Stiffness and Weakness of the Legs,
Old Sores,
Scratches, etc., etc.

For Man.

For the Cure of

Rheumatism,
Lumbago,
Sprains,
Swellings,
Bruises,
Sciatic Pains,
Stiffness and Weakness of the Limbs.

And other Accidents and Afflictions to which Men and Animals are liable.

This Preparation has been before the Public a sufficient time to have its merits fairly tested, and the reports received from various parts of the country prove it to be one of the most valuable Remedies ever offered, both for Man and Horse

A gentleman from Rapahannock co., Va., states that he has found it a first rate remedy for Rheumatism:

One from Gloucester county. Va , has used it both for Rheumatism in Man and Lameness in Horses, with great success.

Another from Rapahannock county says that he used it on one of his men, whose hand was severely crushed in blasting rocks; and that he was speedily cured.

A distinguished gentleman, formerly State Senator, from Rockingham co , Va , used it on one of his servants, whose hand was badly wounded in a threshing machine, and he was restored very soon.

A gentleman in Augusta county, Virginia, cured his horse of Fistula, and also used it in his family with great success for Rheumatism.

One in Carolina co., Va , says it has been found to be very valuable for horses troubled with the scratches.

A gentleman of high standing of Frederick co., Md., says he considers it the best thing ever used on a horse.

A distinguished gentleman, formerly Sheriff of Jefferson county, Va., says that he has tried it, both for Man and Horse, and that he finds it first rate for either.

Where this preparation is known, it has attained a deservedly high reputation. The Proprietors have in their possession a number of letters, from different parts of the country, bearing testimony to its great value and they confidently CHALLENGE THE WORLD to produce any thing superior to it as a Remedy, in those cases for which it is recommended.

Great Medicine for Worms in Children and others.

SMITH & ATKINSON'S AMERICAN WORM KILLER.

This Medicine has been manufactured by SMITH & ATKINSON for several years, and has been used with great success by Physicians, and others, in various parts of the United States Many thousands of bottles have been sold, and the universal approval it has met with, in all quarters where it has been introduced, proves that it needs only a trial to satisfy the most incredulous of its great value. The size of the bottle has been enlarged, so that it is one of the CHEAPEST, as well as most valuable, Worm Medicines ever offered to the Public; and the person buying this article gets the full value of his money, in QUANTITY as well as QUALITY, which is a fact well worth remembering

Be careful to ask for SMITH & ATKINSON'S AMERICAN WORM KILLER, and see that the name of Smith & Atkinson is on the Bottle, in raised letters.

The Proprietors have received numerous testimonials of its great value from various quarters, and on the circular accompanying the bottles will be found a long list of names of persons, who can bear testimony to the great popularity it enjoys with those who have had an opportunity of witnessing its effects.

From Hon. John H. T. Jerome, Mayor of the City of Baltimore.

MAYOR'S OFFICE, Baltimore, August 23, 1852.

SWAIM'S CELEBRATED PANACEA,

FOR THE CURE OF

INCIPIENT CONSUMPTION,

Scrofula, General Debility, White Swelling, Rheumatism, Diseases of the Liver and Skin, and all Diseases arising from Impurities of the Blood and the Effects of Mercury.

SWAIM'S PANACEA has been for more than thirty years celebrated in this country and in Europe for its extraordinary cures—for the certificates for which reference is made to the directions and books (which may be had gratis) accompanying the Panacea. Some of which give the particulars of cases too frightful for general publication, where the patients had been almost eaten up with Scrofula, and were deemed incurable by Physicians.

It has been used in hospital and private practice, and has had the singular fortune of being recommended by the most celebrated physicians and other eminent persons. Among others by—

W. GIBSON, M. D, Professor of Surgery, Pa. University.
VALENTINE MOTT, M D., Professor of Surgery, N. Y. University.
W. P. DEWEES, M D., Professor of Mid., Pa. University.
N. CHAPMAN, M. D., Professor of Phys c, Pa University.
T. PARKE, M. D., President College of Physicians, Phila.
DR. DEL VALLO, Professor of Medicine, Havana.
JOSE EOURENCO DE LUZ, Professor of Surgery, Lisbon.
J. CHIPMAN, Member Royal College Surgeons, London.
G. W. ERVING, late Minister to Spain.
SIR THOMAS PEARSON, Major General British Army.
GILBERT ROBERTSON, British Consul, &c , &c.

And also, the wonderful cures effected by Swaim's Panacea have for many years made it an invaluable remedy. The Panacea does not contain mercury in any form, and being an innocent preparation, it may be given to the most tender infant.

The retail price has been reduced to $1 50 per bottle, (containing three half pints) or three bottles for $4.

BEWARE OF IMPOSITION.

Swaim's Panacea is in round bottles, fluted longitudinally, with the following letters blown on the glass:—"SWAIM'S—PANACEA—PHILADA." and having the name of JAS. SWAIM stamped on the sealing wax, and written on the label covering the cork, and a splendid engraving for the side of the bottle composed of geometric lathe work, comprising nine different dies, which have been turned for the exclusive use of the proprietor, by Draper & Co., bank note engravers, of Philadelphia. In the centre is a portrait of the late Wm. Swaim, copyright secured.

ALSO, SWAIM'S VERMIFUGE.

A valuable Family Medicine, being a highly approved remedy for all diseases arising from debility of the digestive organs, such as Worms, Cholera Morbus, Dysentery, Fever and Ague, Bleeding Piles, Sick Headache, &c. See the Pamphlet (which may be had gratis) accompanying the Vermifuge.

Prepared only at SWAIM'S LABORATORY, THE OLD STAND, Seventh street, below Chesnut, Philadelphia, and sold by all the respectable Druggists in the United States.

CAUTION TO THE PUBLIC.

Persons wishing to obtain the genuine SWAIM'S PANACEA and SWAIM'S VERMIFUGE should be careful to observe that the name SWAIM is spelled correctly on the bottles and labels, or they may be imposed on by medicines made in imitation of them, by a person bearing a somewhat similar name, well calculated to deceive. **General Agents for the United States,**

FOR THE PURIFICATION OF THE BLOOD, THE STOMACH, AND THE LUNGS.

To lessen the sufferings of humanity, alleviate its distresses the deeply seated causes, and remove the baneful effects of disease in the human system, has been the wish and aim of thousands. Also! thousands are doomed to disappointment. for, although there are no diseases for which remedies do not exist, yet but few know where they may be found. To obviate such desideratum the above named medicines well-known and extensively used, are prepared by Dr. Porter, on a theory clear and intelligible, of ingredients few, clean, and simple, and are safely and conscientiously offered to the public.

Dr. Porter's Curative Sugar Pills, for purifying the Blood; removing all obstructions of the alimentary canal, and keeping clean and sweet the human body. DR. PORTER'S MEDICATED STOMACH BITTERS, a general corrector for the stomach and bowels. applicable in billious and nervous affections, fermentation of food, jaundice, nausea, ague, and promotes appetite and healthy digestion. MADAM Z. PORTER'S CURATIVE BALSAM, an unrivalled expectorant and remedy in the relief and cure of coughs, colds, cold chills, and all diseases of the throat and lungs, those forerunners of consumption. All these articles have borne the test of years of experience by the faculty and general public. *Their moderate price place them within the reach of every person.* Prepared and sold by Dr. Porter at his OFFICE, 216 FULTON ST. N. YORK, and sold by all druggists and medicine dealers.

ANN ARBOR, Feb. 16, 1853.

This is to certify that I have been afflicted with Fever and Ague for the last eighteen months, and having tried everything I could think of but all to no purpose, until I was recommended to take Dr. E. Bleecker's Stampede Mixture, which I commenced taking and found immediate relief, and am now enjoying good health. JOHN ARMSTRONG.

YATESBURGH, Mich., Dec. 20, 1852.

This is to certify that I have been afflicted with Fever and Ague for the last eighteen months, during that time have used different medicines recommended to me, without obtaining any relief; one bottle of Bleecker's Stampede Mixture completely cured me of the disease, and I do most cordially recommend those who are afflicted with ague to make use of this invaluable medicine. GEORGE WHITNEY.

PORT HURON, March 2, 1853.

This is to certify that I was taken with the Fever and Ague in the month of July, 1852, and immediately looked for something to cure me, as my business was such that my time was worth too much to loose in my circumstances, and found nothing to benefit me until I happened to be at Mr. L. S. Noble's store where I heard Bleecker's Stampede Mixture highly recommended. I there purchased a bottle and used it three times from which time I have been well, and I will here state for the benefit of the public, that I immediately went to work on the marsh where my feet were wet from morning till night without having any return of ague. IRA PARKER.

R. F. HIBBARD'S

CELEBRATED

Wild Cherry Bitters,

FOR

Nervous Weakness and General Debility.

A preparation which has been eminently successful in allaying and curing

Nervous Irritation, or Excitability,

PALPITATION OF THE HEART,

DIZZINESS OF THE HEAD,

And all diseases arising from a sympathetic affection of the stomach, without superinducing other diseases equally distressing It is a universal tonic, unloading the liver, stimulating the secreting organs and arousing into healthy action all the digestive apparatus, overcoming Langour, Drowsiness, Lassitude, and imparting life and health to the whole system.

All who have used the Bitters recommend them, and we find that one trial is worth more to overcome prejudice than whole volumes of certificates. Hear how they speak:

KINGSTON ULSTER CO., N W YORK.

MR. R. F. HIBBARD: *Dear Sir*—I was affected for nearly five years with a chronic disease of the liver, so much so as to be incapacitated to do any bodily labor or any business for the maintenance of myself and family, frequently confined to bed, and often for months together in the house. I suffered much from debility and severe lassitude. The disease baffled the skill of my several physicians. I felt nature fast sinking to decay, and the fond hopes entertained by my friends and of myself of recovery expiring; a friend sent me R. F. Hibbard's Wild Cherry Bitters. I followed the directions, the effect was *wonderful*, the pain decreased, my appetite and bowels became regulated; in short, my emaciated body invigorated, and I was enabled to labor at my trade. I ascribe this change to your invaluable medicine, and for which you will accept my humble thanks. I think a few more bottles will effect a permanent cure.

CORNELIOUS J. HOUGHTALING.

MR. R. F. HIBBARD—

I verily believe that your cherry bitters have been the means, through Providence, of saving my life. I have been ailing for several years, and for the last year I had a very bad cough, it became worse and worse. At last I raised large quantities of blood, had night sweats and was greatly debilitated and reduced, and did not expect to live. After using a few bottles of your bitters there has been a wonderful change wrought in me. I am now able to walk all over the city I raise no blood, and my cough has left me. You can well imagine that I am thankful for these results.

Your Obedient servant,

H. MARTHER, No. 170 Washington street, Brooklyn.

(*From the Long Island Farmer.*)

HIBBARD'S WILD CHERRY BITTERS.

Among all the real valuable alteratives and tonics in the materia medica, none have been so extensively patronized and universally approved as Hibbard's Wild Cherry Bitters. At the North, during the spring and summer months, they prevent or cure the various disorders so common in our climate. It has become a standing proverb among the people of Long Island, in certain districts where fever and ague prevails, "that no man fears the '*shakes*'" who daily takes a wine glass of R. F. Hibbard's Bitters. The virtues of the wild cherry bark and the fruit are so skilfully combined, that a chemical analysis shows how far superior must be the virtues of this article to any other.

Many valuable Improvements have been made by Dr. CHILTON in the mode of preparing this popular medicine. Under his skilful hand its sanative powers have been so much increased, that only one or two tea-spoonsful of the extract are required for a dose which is an important item to those using Compounds of Sarsaparilla, as this fact alone proves it to be the STRONGEST and CHEAPEST medicine ever invented to **Purify the Blood**, and permanently cure

B. A. FAHNESTOCK'S

VERMIFUGE

THE SAFEST AND MOST EFFECTIVE

REMEDY FOR WORMS

THAT HAS EVER BEEN DISCOVERED.

This standard and valuable preparation has now been before the public twenty-four years, and there cannot be any better evidence offered of its efficacy than its constantly increasing reputation. It is, without doubt, the safest and most effectual medicine for expelling worms from the system that has ever been discovered. Nor is the knowledge of its remedial virtues confined to the United States, but there is a constant demand for it, from England, South America, the West Indies, &c. where it is extensively used. It is perfectly harmless, and may be administered with the utmost safety to children of all ages. Physicians do not hesitate to recommend it, and use it exclusively in their practice. Many of the most eminent and skillful of the profession, from all parts of the country, testify as to its uniform success. In fact it NEVER FAILS when the patient is afflicted with worms.

THIRTY FEET OF TAPE WORM EXPELLED.

From Mr. Wm. W. Booth, Druggist.

FENTONVILLE, Mich. Feb. 8, 1853.

Messrs B. A. Fahnestock & Co: Gentlemen,—I have had a great sale for your Vermifuge. Besides what you sent me, I bought, with Birdsall & Irwin's stock of drugs, over five dozen, nearly the whole of which is sold. It does great execution amongst the worms. A Mr Joseph Parker gave his son, nine years old, three bottles of your Vermifuge, and it brought away nearly THIRTY FEET OF TAPE WORM. Daniel Odell gave two bottles to a child four years old, and it passed about ONE HUNDRED WORMS, NEARLY A FOOT LONG, and many smaller ones came away, and the child is well. As soon as navigation opens, I shall order an additional supply. Respectfully yours, &c. WM. W. BOOTH.

Used and Prescribed by Practicing Physicians.

RUSHVILLE, In September 21, 1852.

Messrs. B. A. Fahnestock & Co. Gentlemen,—It gives me pleasure to state that I have been selling your Vermifuge for some ten or twelve years, and during that time I have also sold other Vermifuges and preparations, and I can conscientiously say that yours has universally given satisfaction to all who have used it; and was generally used and prescribed by PRACTISING PHYSICIANS in the town of Washington, Ky., and its vicinity, where I did Business, up to May, 1852. I have during the same time, used it in my own family with great satisfaction, when other preparations have failed of the desired effect

RALSTON'S PATENT IMPROVED GRAIN THRESHER

SEPERATOR AND CLEANER.

The subscriber has been engaged in manufacturing the above machines for a number of years, and has introduced them in all the Western grain growing States & along-side of the most popular machines in use, and has taken the preference in all cases.

The advantage this machine has over all other Machines yet introduced, is—First: It will thresh more grain in a given length of time, with less power, than any other machine in use. Second: The simple construction and durability of the Machine makes a very important item to inexperienced hands. Third: In the chafing riddle, it being made of perforated sheet iron, so there is no possibility of choking in damp grain as is the case in other Machines. Fourth: In the elevating of the grain, after being separated and screened, and the second operation of screening and fanning, which leave no possibility of any dirt remaining, and discharges the tailings back to the cylinder. Fifth: The advantage of having the clean grain elevated so it can be discharged some distance from the machine by a close spout into a box or bag ready for market. Sixth: In the open straw carrier and the trunk, so there is no waste by carrying grain with the straw. Seventh: The advantage of attaching the tumbling shaft in three different places on either side or end as the ground or barn suits best.

The power is simple, strong, and but little gearing, consequently the friction is small, and takes less power to drive it, there being but four wheels o the power. Being convinc d that this machine has all the advantages claimed for it, and having spent much time in examining all the various machines throughout the east and west, have become satisfied that it is unequaled, and the best evidence can recommend it. Having taken pains in selecting the best material and workmen can give entire satisfaction.

Also: Four Horse Threshers, without the Cleaner, Machine Castings, Sausage Grinders, etc., constantly on hand and for sale.

References can be had, with satisfactory evidence from men that have used my machines and the various others.

MELO-PEANS,

Akron, Summit Co., Ohio.

The undersigned, sole proprietors and manufacturers, take pleasure in calling the attention of the musical world to their popular and unrivalled instrument.

The melo-pean is the disideratum long looked for, by Amateurs, by happily filling the void which has hitherto existed in all key-board instruments. The combination of its *improved reeds and sounding board*, with its peculiarly simple and easy blowing aparatus gives it the power to produce the prolonged sound of the organ, the quickness and brilliancy of the piano, and the variety and expression of the violin.

It is truly the finest and most desirable parlor instrument ever invented and as an accompaniment to the human voice it has no equal.

MATHER, (the only Practical Partner of the late firm of Romig, Lay & Co.,) which they warrant equal, in every particular, to any manufactured, and if not found to be so, they are willing to forfeit the article sent. As we are determined that every customer shall have a full equivalent for his money, we sell only for cash or good endorsed paper, thus insuring to the consumer an article at a less price, or a better article for the same price, than can be had elsewhere. Good orders on Newspaper Agents will be accepted as Cash.

N. B Inks of any color or tint made to order at short notice. Orders by mail punctually attended to.

The following testimonials in regard to the qualities of the INK manufactured by Mr. Mather, and furnished by the late firm of Romig, Lay & Co., will satisfy the most incredulous:—

"Printing Ink of your manufacture we have been using for nearly a year past. For its free easy distribution, and good color, we think it equal to any Ink manufactured in the United States.

Yours, Respectfully,
C. SHERMAN,
Philada., Nov. 13th, 1852. ISAAC ASHMEAD."

"We have been using, for some time past, Printing Ink manufactured by you, and take pleasure in recommending it as a first rate article. For color, easy working and distribution, it has no superior.

Respectfully Yours,
Philada., Nov. 18th, 1852. KING & BAIRD."

"We have been using Ink made by you, for the past year, both for Book Work and for the "Saturday Evening Post," and think it equal to any we have ever used. Yours, Respectfully,
Philada., Nov. 18th, 1852. DEACON & PETERSON."

"We have been using your fine CUT INK, for some time, and find it equal to any Ink of the kind we have used. Respectfully Yours,
Philada., Nov. 18th, 1852. SMITH & PETERS."

"FINE INK.—We take pleasure in calling the attention of Printers to the very superior quality of the Ink used in the printing of our wood-cut forms. It is from the establishment of Mr. Romig, Lay & Co. —GRAHAM'S MAGAZINE, March, 1852.

"ROMIG, LAY & CO.'s Printing Inks are considered by practical Printers equal to any manufactured in this or any other country, and are preferred to nearly all others. They possess body, brilliancy and durability—three most important requisites, and work with a clearness rarely met with in any Inks.—DAILY COMMERCIAL REGISTER, Oct. 23d, 1852.

HUSBAND'S

CALCINED MAGNESIA

The superior properties of this preparation are the same as those so much esteemed in the genuine Henry's Magnesia — that of being clear of unpleasant taste, and of roughness or grittiness to the touch or palate. It is also of the same density as Henry's, being three or four times that of the common Calcined Magnesia. The price per gross, one half that of Henry's

FIRST PREMIUM SILVER MEDALS

Have been awarded for it by the Franklin Institute, Pa., the American Institute, N Y., the Mechanics' Association, Boston, and by the Maryland Institute. The judges of Chemicals at the Franklin Institute state, in the twentieth report, that this Magnesia is "believed to be the best in the United States."

HUSBAND'S

ISINGLASS ADHESIVE PLASTER

This Plaster has been found to be admirably adapted to strapping after surgical operations, and as a dressing to either incised or lacerated wounds. It is cleanly, of easy application, adheres firmly, without producing inflammation, and being semi-transparent, it allows of an examination of the parts, without their having to be disturbed by its removal, until, in many instances, the cure is effected. The plaster is not affected by age or change of climate.

Professor Mutter, of Jefferson Medical College, in his edition of Liston's Lectures on Surgery, remarks that "the Isinglass plaster referred to by Mr. Liston, is exceedingly well made, by Mr. Husband, of this city, and for some time past I have almost abandoned the use of the old adhesive plaster of the shops, which often, in persons of a delicate skin, or children, produces troublesome irritation."

Orders from the trade are respectfully solicited for the above articles. Terms accommodating.

VERTICAL VACUUM FAN AND SMUT MACHINE COMBINED.

The object of the Vacuum Fan and Smut Machine combined was (simply) to arrange and combine a suction fan with an improved Smut Machine, in such a manner as to render the combined machine capable of performing the work that has hitherto required two machines, to wit :

1st. To separate the chaff, smut balls, &c., &c., from the wheat, preparatory to the commencement of the scouring process.

2nd. To thoroughly scour with the least liability to breaking the wheat.

Reference being had to the subjoined certificates.

This certifies that we have used Mr. Lewis Fagin's Vacuum Fan and Smut Machine combined, and can safely say that it cleans wheat decidedly better than any thing of the kind we ever saw. In fact it is the only machine we know of that takes out the smut, chaff, &c., before the scouring is commenced. It not only does this effectually, but it thoroughly scours the fuzz from the grain and is not half so liable break wheat, as machines do that rely upon the beating process, its operation is that of pearling rather than beating, and is so arranged and ventilated as to draw the dust out at intervals during the scouring process ; (a great advantage this over other machines;) it is very durable, cleans fast with little power and room, and gives no trouble, and will, as we believe, more than meet the expectation of those who try them, and therefore we cordially recommend them as a valuable machine possessing all the advantages claimed by the inventor.

Practical Millers, { H. C. HAYMAN.
JOSEPH H. FAGIN,
JOHN NAIRN.

VERTICAL VACUUM FAN AND SMUT MACHINE COMBINED.—This certifies that we are using Mr. Lewis Fagan's Vertical Vacuum Fan and Smut Machine combined, which performs its work most admirably. This machine not only separates the smut and other foul substances from the grain, before the scouring process is commenced, (an important item,) but it thoroughly scours the same, and further, the dust is immediately drawn out as soon as scoured loose from the grain. We consider that this machine richly deserves all the merit that Mr. Fagin claims for it, and that it will fully meet the expectations of those who try it, therefore we heartily recommend its adoption.
